The one man slab.

At last there's a simple solution to the problem of heavy air-conditioner condenser and heat-pump foundations. It's the Bräme Air-Pad®. And just like its name implies, it's one of the lightest, most convenient pads for air-conditioners and heat-pumps you'll ever find.

Air-Pad® saves time on job-site installations. It reduces injuries from strain or pinched fingers. Plus, Air-Pad® is sound and vibration-absorbing—an extra benefit not found with heavy concrete or aggregate slabs.

Make the switch now to the lightweight, sound-absorbing one-man foundation for air-conditioner condensers and heat-pumps. Air-Pad® from Bräme Corporation.

Call today for more information and your nearest wholesaler.

**Follow
the signs**

**The size
you need
in water
cooled
condensers
is Standard.**

From fractional HP, palm sized
condensers to super capacity
125 hp models, Standard pro-
vides the style and price your spec-
ification requires.

And quickly. Popular model
inventories are located at
Standard Wholesalers across the
country, backed up by regional
warehouse stocks in strategic
locations from coast to coast.

When you need a condenser,
chances are we can supply it. And
in the size and style you want.

It's the sign of Standard quality.

To get condensers, chiller
barrels, air dryers and receivers
you need, come up to Standard.

Winning the battle of the BTU's

Standard
